

1-day Training Course

LEAN FOUNDATION

Young Future
Leader for Excellence

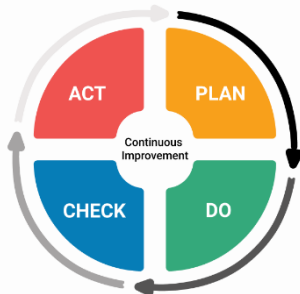

Human Management
Center

Lean Foundation course prepares you with the skills required to be an effective team member and contributor to a Lean improvement project. You will learn how to apply the basic Lean principles, methods and tools through an integrated simulation.

This program provides a critical element of Lean process improvements: grassroots know-how and support to achieving operational excellence and process control.

No prior qualifications or experience is expected. After completing this course, you will constantly recognize opportunities for continuous improvement in your workplace.

Facilitated by Black Belt-level instructors with real-world experience, this course has a practical and applied focus.

LEARNING METHOD

- Theoretical Methodologies
- Video Learning
- Group Work
